

MONESH R

Data Analyst | Artificial Intelligence | Operations Analytics | Data Quality

Bengaluru | +91 8217019750 | moneshmuddu@gmail.com | linkedin.com/in/moneshr | github.com/Mo-nesh

PROFESSIONAL SUMMARY

Results-driven Data Analyst with 1+ year expertise in Business Intelligence, Student Performance Analytics, Data Quality Management, and Process Automation. Proven track record: 80% manual effort reduction, 99% data accuracy, 2000+ student analytics. Proficient in Power BI, Python, SQL, Advanced Excel. Expert in dashboard development, ETL validation, data governance, and cross-functional collaboration.

CORE COMPETENCIES

Data Analytics, Business Intelligence, Power BI, SQL, Python, Pandas, NumPy, Advanced Excel, Looker Studio, Google Sheets, Dashboard Development, KPI Tracking, Student Performance Analytics, Operations Analytics, Data Quality, Data Validation, Data Profiling, Data Standardization, Data Governance, ETL Testing, Process Automation, Reporting Automation, Root Cause Analysis, EDA, Trend Analysis

PROFESSIONAL EXPERIENCE

Operations & Data Analytics Associate

BASE Educational Services Pvt. Ltd. | April 2026 – Present

- Perform end-to-end student performance analytics for 2,000+ students identifying trends, performance patterns to support academic decision-making
- Develop automated dashboards, KPI reports using Power BI, Google Sheets, Excel enabling data-driven leadership decisions
- Design automated student result workflows using Meta WhatsApp Business API reducing manual effort by 80%
- Standardize large-scale operational datasets through duplicate detection, inconsistency resolution, data cleansing
- Maintain 99%+ data accuracy through systematic validation, reconciliation, quality assurance, data governance
- Build automated reporting workflows improving turnaround time and eliminating manual processes

Data Analyst – Marketplace Operations (AI Control Tower)

Umoja Marketplace Pvt. Ltd. | August 2025 – January 2026

- Developed Power BI dashboards monitoring onboarding, retention, attrition, SLA compliance, operational KPIs
- Performed Exploratory Data Analysis (EDA) identifying trends, performance gaps, optimization opportunities
- Designed automated data validation frameworks using Python, SQL for duplicate and inconsistent records detection
- Executed ETL testing and data reconciliation verifying accuracy and consistency of transformed datasets
- Automated recurring operational reports using Python, SQL, Excel reducing manual reporting effort

AI Data Quality Analyst Intern

Rooman Technologies Pvt. Ltd. | March 2025 – August 2025

- Conducted data profiling, cleansing, quality assessments on enterprise datasets improving reliability
- Developed Python, SQL validation scripts automating reconciliation, duplicate detection, schema validation
- Performed ETL testing validating transformed datasets ensuring source-destination consistency
- Designed Power BI dashboards monitoring data quality KPIs and validation metrics

TECHNICAL SKILLS

Programming: Python, SQL | Data Processing: Advanced Excel, Pandas, NumPy, Data Cleaning, Data Validation, Data Profiling, EDA, Root Cause Analysis | BI & Visualization: Power BI, Looker Studio, Google Sheets, Dashboard Development, KPI Reporting | Databases: MySQL | Automation: Workflow Automation, Reporting Automation, Meta WhatsApp API | Version Control: Git, GitHub | Professional: Leadership, Stakeholder Management, Process Improvement, Problem Solving

EDUCATION & CERTIFICATIONS

Bachelor of Engineering (AI & ML, 2025, CGPA 8.15) | Pre-University (94.33%) | SSLC (95.36%) | AI Data Quality Analyst Certification (Rooman) | Python Programming | Power BI | SQL Fundamentals | Data Analytics & Business Intelligence
